Engaging in wildlife rehabilitation and trail maintenance to promote ecosystem preservation and environmental appreciation

Overview: More than 850 feet long and as tall as a 10-story building, Natural Tunnel was naturally carved through a limestone ridge over thousands of years. Williams Jennings Bryan called it the “Eighth Wonder of the World”. Other scenic features include a wide chasm between steep stone walls surrounded by several pinnacles, or “chimneys”. Facilities include 2 campgrounds, cabins, picnic areas, amphitheater, and visitor center. The park offers environmental education, conference facilities, and overnight accommodations for the local community.

Day-to-day: Volunteers help with a variety of projects including group nature programs, wildlife rehabilitation, trail maintenance, and nature displays. Activities may be physical and vary from month to month. Participants will partake in service from 8am – 5pm each day. Expect to be outside for full days.

The Nitty-Gritty Details: Students will stay in rustic cabins that include bunk beds. Meals are not included by the sites, but the group will be given a small budget for groceries to use for meals throughout the week. Participants should plan to have additional funds for some meals. Participants on this trip will enjoy hiking in the park during free time. It should be noted that cell service might not be available for the entire trip.

Virginia
Association for Parks

SPECIFICATIONS

Location: Duffield, VA

Price: \$200
