

HABITAT FOR HUMANITY: PENSACOLA

Overview: Habitat for Humanity was founded on the conviction that every man, woman and child should have a simple, durable place to live in dignity and safety, and that decent shelter in decent communities should be a matter of conscience and action for all. Habitat Pensacola was established in 1981 and is dedicated to providing opportunities for home ownership to low income families in Pensacola, Milton and Gulf Breeze.

Day-to-Day: Students on these trips will work on the construction of houses in each of the local communities. Volunteers do not need construction knowledge. The group will be working full work days (9-4:30) at the site. They will be working on 1 to 2 build sites. Activities could include putting up siding, doing woodwork on the house, working on interior building, etc. The group could be split into smaller groups for the week and each group would have a specific task.

The Nitty Gritty Details: Participants will be staying in a church building provided by the Habitat organization. Several meals are provided throughout the week. The group will be given a small grocery budget to purchase food for additional meals but group members should plan to spend additional funds for some food.
