Overview: For the past 30 years, OUTMemphis has worked to create a world in which Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ+) people have equal rights, and are safe, accepted, and celebrated. OUTMemphis provides dynamic, high-quality, life-enhancing programs and services that meet the diverse needs of the LGBTQ+ community of all ages. These services include trainings for the community, addiction recovery, sexual health, youth & senior services, social groups, and transgender services.

Day-to-day: Students will be volunteering with the Metamorphosis Project, OUTMemphis’ response to LGBTQ+ youth homelessness, as well as their Health & Wellness programs that help to provide people with STI testing and other forms of wellness navigation. Other service projects may include miscellaneous operational tasks within the building such as cleaning and organizing.

The Nitty-Gritty Details: Participants will stay in a hostel that is walking distance from the service site. Breakfast will be included each day, and the group will be given a small budget for groceries to use for meals throughout the week. Participants should plan on bringing extra funds for other meals.
