

This Virtual Winter Buck-I-SERV will focus on the social issue of Education

Overview: For Winter 2020, all Buck-I-SERV's will take place virtually. Each Virtual Buck-I-SERV will be focused on a different social issue. This trip will focus on Education, with experiences geared toward working for social change on that issue. Participants on this trip will interact with Buck-I-SERV's community partners who do work with that social issue and will have some of their other experiences geared that way as well. Each Buck-I-SERV will be split into smaller groups that will meet throughout the week to engage in reflection and collaborative activities.

Day-to-day: Each day consists of several different activities, some that are undertaken as a small group, some as a large group, and some on participant's own time. The experiences run the gamut from virtual service to webinars with community partners and community champions and much more. For a full breakdown of the schedule check out go.osu.edu/winter2020virtualbuckiserv. The experience is designed to maximize learning and service in a safe, socially distant way. There are also plenty of opportunities for fun and connection with others! It is asked that those who apply for a trip attend as many of the activities as possible.

The Nitty-Gritty Details: Prior to their Virtual Buck-I-SERV, participants will receive a packet of materials for the week (either by mail or by in-person pick up) that will include a participant workbook, detailed schedule, and other fun goodies! Break Leaders will be assigned to each Virtual Buck-I-SERV. They will be responsible for organizing some of the activities throughout the week and will maintain contact with their small group. No cost is associated with the Virtual Buck-I-SERV experience.
